PACKINGTON SOMERS COARSE FISHERY

REPORT

Over the past week the pick of the pools has been Little Gearys which has produced nets over 60lb this week. The recently stocked F1s and carp have settled in well and are encouraging the old stock to feed. Pole and pellet at 4-6 metres is the best tactic with most pegs good for double figure nets at least, but the hot spots have been pegs 11-17 & 25-28 on the straights. Gratuities has also been fishing well with carp, tench, crucians, roach & skimmers coming to pole fished pellet or caster. The corner pegs have been in the best form with 1, 2, 8, 15 & 16 all going well. On Gearys skimmers to 2lb & tench to 3lb have been making up the better catches with the high bank on pegs 7-12 the top area. Chopped worm & caster or pellet have been the best baits. Molands has been hard this week with the new F1s holding around pegs 16-19 and producing catches to 20lb on pole & pellet. Around the pool odd skimmers to 2lb and roach have been coming to the maggot or caster.

Willow has been good for mixed nets of roach, skimmers, crucians and the odd bonus tench or carp with maggot or caster the best baits.
